TIPS FOR DRIVING A ROUNDABOUT

- Look to your left. Vehicles already in the roundabout have the right-of-way. If there is no traffic in the roundabout do not stop. If there is traffic present, wait until it clears, then enter the roundabout
- Slow down—use proper judgment when determining how fast to drive around the roundabout. 15-20 mph is a safe speed.
- Keep your car in the same lane as you enter and exit the roundabout
- Buses, trucks, and vehicles with trailers may need more than one lane on the roundabout. Use caution when next to or near a larger vehicle when entering roundabout
